DETAILED ACTION

Reason for allowance

Claims 1-8 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed limitations having a method for manufacturing a read only memory (ROM) device capable of shortening product turn-around time comprising the steps of providing a substrate having MOSFETs within a ROM region and wherein all of the MOSFETs are initially in an "ON" state and covered by a first dielectric, forming a coding photoresist layer on the dielectric and patterning to form a plurality of apertures defining exposure windows exposing underlying MOSFETs to be code into an "OFF" state, etching the dielectric layer, sources of MOSFETs, and portion of substrate through the exposure windows to form a deep trench which disconnects the sources of the MOSFETs from source lines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion
